MEDIGROUP, Inc.

- ▶ *Designed for your safety and convenience, Pedidry[®] plastic boots can keep your staff dry and protected*

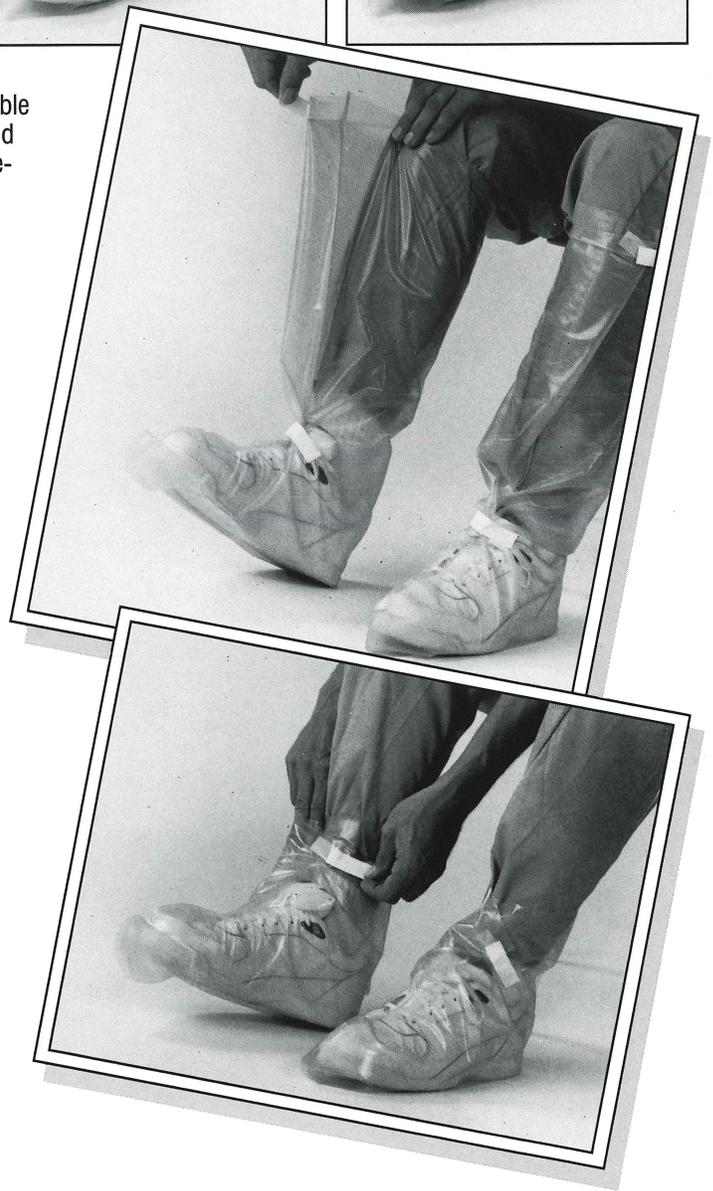

PEDIDRY[®] PLASTIC BOOTS

- ▶ While wearing Pedidry[®] boots you can be assured of dry, comfortable feet when working in the wet conditions of the operating room, labor and delivery room, emergency room, urology, orthopaedics and even house-keeping!
- ▶ Manufactured with convenient adhesive strips, Pedidry[®] boots can be fastened quickly and easily. Just tuck in the material under the leading edge, pull back the adhesive strip, pull across and secure.
- ▶ The exclusive plastic design allows for the highest degree of gripping power. You can walk, pivot and stop with the greatest confidence.
- ▶ Pedidry[®] boots are available in knee high and ankle high models with a variety of common sizes. Both models are available in convenient dispenser packages—50 pairs per box.

Stay dry...wear Pedidry!
